

# Shoplifter's Support Group...

## Is an asset to your clients!

Regular attendance to C.A.S.A. support group will:

1. Demonstrate to the judge/prosecutor that your client is serious about rehabilitation before and after sentencing.
2. Help your client truly understand the addictive and compulsive nature of their theft problem.
3. Provide connections to both support and resources to transition from self-destructive behavior to a healthy and honest lifestyle.
4. Offer opportunities to serve the community by assisting others in the group with recovery issues.
5. Contribute to the solution to our community's shoplifting (theft) problem.
